

EMAIL FROM BOLTON SU PRESIDENT TO ALL STUDENTS

Re: A Statement – ~~Critical~~ University change has pad

Dear friends

I am writing to respectfully inform you that the Office for Students (OfS) has launched the consultation on the University's proposal to become: University of Greater Manchester.

As President of Bolton Students' Union, I wholeheartedly support this landmark change and strongly believe the new title and brand will elevate the University to a new level after years of achievement.

The University has changed over the past few years and now operates throughout Greater Manchester, not just Bolton.

We will remain committed to Bolton and are proud to be part of such a fantastic local community. In fact, I believe that the new title of University of Greater Manchester will actually ensure that Bolton is promoted even more widely globally, as the University will attract much more attention. The name change will help to ensure that we are an even more attractive prospect to international students such as myself.

The consultation begins today. Your support is important to help the OfS understand that the student body is behind this proposal. I would ask you to please respond positively to the consultation, which you can do by clicking
